- Humanitarian Health Design Hackathon with Johns Hopkins University
- World in Conversation, Penn State University, 2018
- Alfakhoora Model United Nations - Gaza 2016

Summary

Junior Mechatronics Engineer who is passionate to learn, and believes in Sustainability principles. I am interested in renewable energy and engineering design and I have the basic knowledge in SOLIDWORKS as well as AUTOCAD. Besides engineering, I strongly believe in the importance of social volunteer work, especially the principle of "pay it forward".

Skill Highlights

- Communication skills
- Work under pressure
- Decision maker
- Complex problem solver
- Time Management
- Academic Writing
- Public Speaking
- Research & Development
