SUMMARY

Say welcome to creativity !

When the Arabic language teacher in the fifth grade primary read the story that I wrote, he stared at it long and then said to me: Mohammed.. are you sure that you wrote this topic from your mind?

I said yes, why?

He said: Bravo! I did not know that you have this talent, This is one of the most beautiful topics that I have read during the year. You have to take care of this skill.

This was my starting point and the moment of my hidden talent of writing being discovered I am now a creative content writer with over 3 years of experience writing essays and marketing content and content plans for different companies. During the last two years, I have written more than 600 project proposals for more than 250 NGO's in Saudi Arabia, these projects have received total financing that exceeds 20 million SAR.

My work is original, well-written, graceful style, and close to the reader's heart. It will definitely advance your business for the better.

I have the ability to work with content management tools like: Microsoft Office, Google Forms, and I have the ability to work with visual content programs such as: Adobe Photoshop, Adobe Illustrator, and Filmora Pro, and I can handle English easily with reading, writing and translating.

As for my hobbies: I am fascinated by photography and I have already learned its basics. I often spend my spare time taking good photos that I share here in the 500px gallery:
